VISUCAM RETINAL EXAM

Our doctor is proud to provide our patients with the most highly advanced technology available in retinal screening today! Our ability to view your internal retinal health is now dramatically improved with the Visucam Retinal Camera by Zeiss.

Doctor Walker has always been concerned about retinal problems such as macular degeneration, glaucoma, retinal holes or detachments and diabetic retinopathy (all of which can lead to partial loss of vision or blindness). Additionally, systemic diseases such as diabetes and high blood pressure can often be detected during a retinal exam. Now we can screen and documents for those things better than ever!

EARLY DETECTION IS CRUCIAL!

Visucam provides:

An annual wellness scan

An in depth view of the retinal

The ability to show you your images today during your exam

A permanent record for your medical file, which gives our doctor comparisons for tracking and diagnosing potential eye diseases

Visucam:

Is fast, easy and comfortable

Will **NOT** normally require dilating drop

Our doctor would like for **ALL** of our patients to have the Visucam screening exam annually to monitor baseline results.

_____ Yes, I would like to have retinal photos performed today (**Additional fee of \$39**)

_____ No, I would not like to have retinal photos at this time.
